# ABOUT US

## GIC

Grand International Company was established in 1993. GIC specializes in providing solutions in the design, execution, and managing of Management Information Systems and its associated operations of administration, technical, financial, and marketing in various fields within the Governmental and Private Sectors.

## Our Mission

Building and managing comprehensive, innovative, flexible, user-friendly, and measurable Information Technology Systems by providing creative and effective solutions that meet our clients' objectives with the aid of our distinctive staff.

## Our Strategy

GIC provides comprehensive and innovative solutions for our clients and puts forth our clients' technical needs on top of our priority list. We recommend executive and creative solutions during the design phase in compliance with the customary business strategies and in line with our clients' objectives and needs.

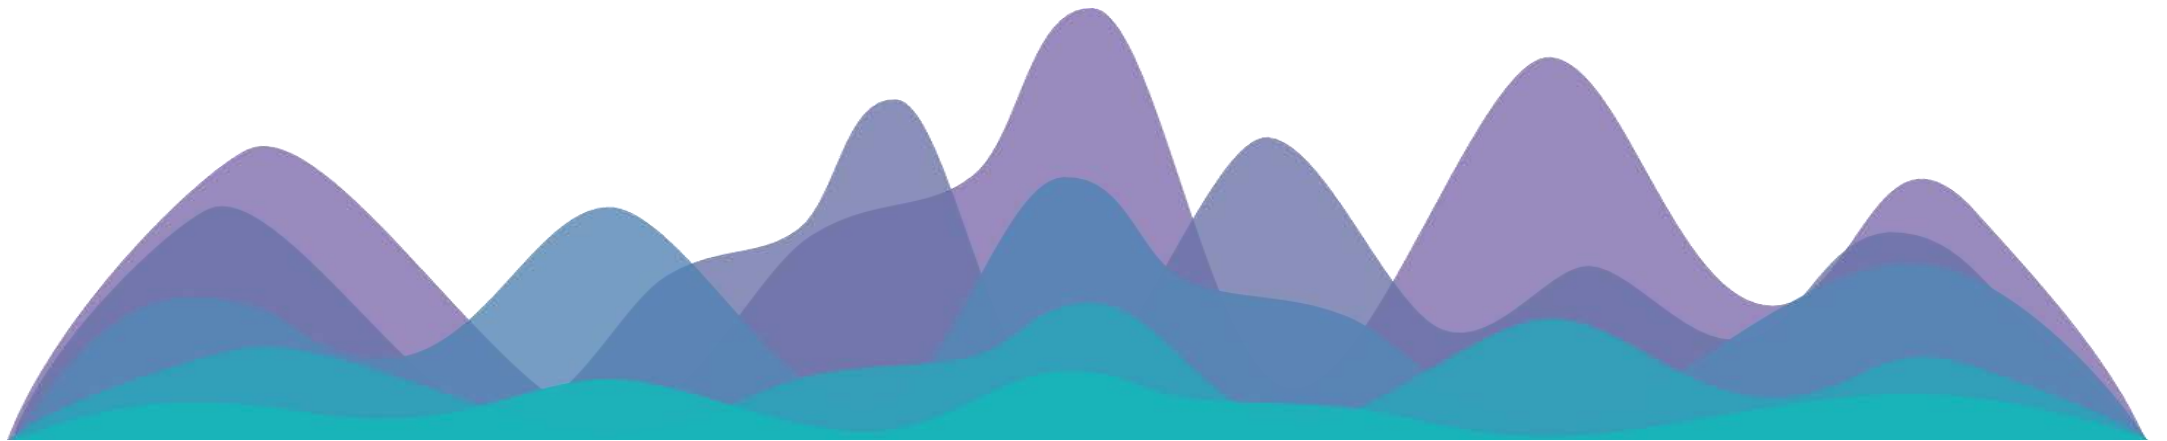

Our extensive planning and analysis of our clients' current and future needs are the basis of the design of effective Information Technology Systems. At GIC, we work on providing synergy between Information Technology Systems and communications through smart applications/solutions ensuring longevity and continuance of strong, cohesive, and innovative work environments that are flexible enough for future upgrading.

**Belal Hamouda**  
CEO & Founder - GIC

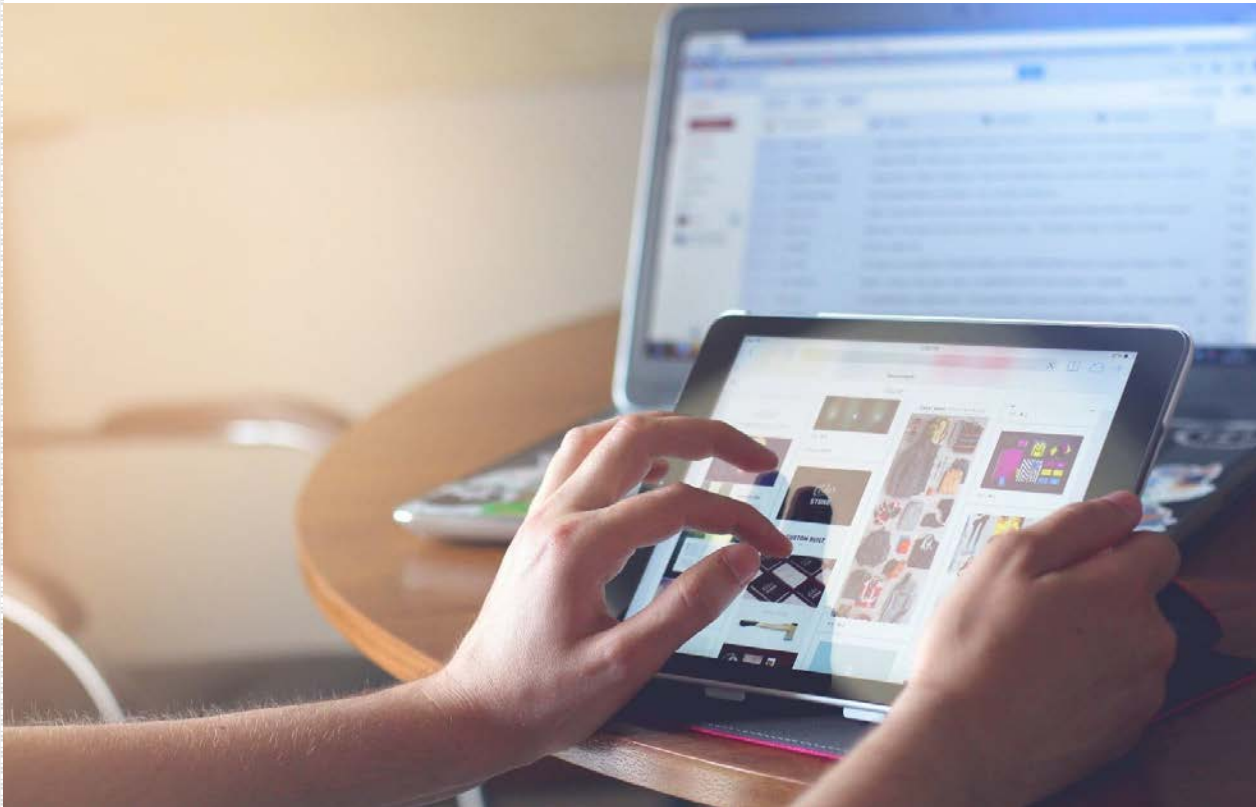

### **Our Resources**

“ At GIC, we believe that our employees are the most crucial assets to the Company and are our biggest investment. They are the main drivers of incentives for innovation, especially that the efficiency of Information Technology Systems rely primarily on finding creative solutions, which is what we aspire for at GIC. ”

# CAE Solutions

GIC is one of the largest Enterprise Software and Hardware resellers. We help our customers with solutions like Autodesk, Adobe, Oracle, Microsoft and hundreds of others, bring their products to market, and we offer a wide range of technical and business support services. We certify, train, instruct and support our customers, and help configure, install their purchases. Many of the hardware devices and software applications that you use in your daily life have passed through us on their way to market.

## Partners

# Enterprise Software Solutions

GIC is an Autodesk Gold Partner in the region.

Autodesk Inc., is a leader in 3D design, engineering and entertainment software. Customers across the manufacturing, architecture, building, construction, and media and entertainment industries—including the last 19 Academy Award winners for Best Visual Effects—use Autodesk software to design, visualize, and simulate their ideas before they're ever built or created. From blockbuster visual effects and buildings that create their own energy to electric cars and the batteries that power them, the work of their 3D software customers is everywhere you look.

They are also making design technology accessible to amateur designers, homeowners, students, and casual creators through their apps. Whether it's a kid looking to build a new contraption, a seasoned pro sketching out a great new idea, or someone who just wants to amp up their creative output, we're taking technology originally built for movie studios, automakers, and architectural firms, and making it available to anyone who wants to create and share their ideas with the world.

Autodesk make software tools that help our customers design and make anything, from skyscrapers to building components to bridges and blockbuster video games

## Adobe Creative Cloud for Enterprise

To be successful, companies need content velocity: the ability to create, source, manage and publish content faster than ever. Adobe Creative Cloud for enterprise speeds up creative workflows and unlocks content velocity, empowering your organization to deliver great experiences to every surface.

### Create across desktop, mobile and cloud services

Empower your teams to create anywhere with fast, flexible design workflows. Creative Cloud for enterprise includes desktop apps like Adobe Photoshop CC and Illustrator CC, plus connected mobile apps and essential cloud services that let you start a project on the go and finish it anywhere.

### Easily share assets across your apps and teams

Creative Cloud Assets puts your files, fonts, images, videos, settings, and other assets right at your fingertips across your desktop, web, and mobile apps. Collaborate across teams with style guides, project folders and other work-in-progress assets, equipping your teams with modern workflows that are up to 10x faster than without Creative Cloud.

### Accelerate the design process with Adobe Stock and Adobe Fonts

Access over 125 million high-quality stock images, graphics, templates, 3D models and videos directly from within your Creative Cloud apps with Adobe Stock, as well as over 14,000 of high-quality fonts for web and desktop design with Adobe Fonts.

### Manage enterprise access and work securely

Your IP and creative content are encrypted both in transit and at rest, ensuring that your data is protected at all times. Deploy software and services using the Adobe Admin Console, and take advantage of the User Sync Tool to synchronize with existing directory systems so user changes are automated and the organization is in complete control of Adobe license entitlements. Plus, onboarding assistance and 24/7 technical support are always just a phone call away.

# Enterprise Software Solutions

GIC is an Adobe Gold Partner in the region.

Adobe is changing the world through digital experiences – helping our customers to make, manage, measure and monetise their content at a Global reach and across every channel. With products including creative cloud, Adobe works to maximise your workforce productivity and content creation.

We have a deep understanding of the Adobe portfolio driven by our in-house operations team and Business Manager who work closely with Adobe.

Adobe Creative Cloud supports all creative disciplines in any sector, old or new, giving a complete solution. The Creative Cloud keeps all assets connected at application, team, functions and brand level. With built-in artificial intelligence productivity, scale, and workflow efficiencies are maximised. The Adobe Creative Cloud suite allows organisations to equip their employees with powerful creative tools to collectively broaden their creative potential.

*We can recommend the best Adobe products suited to your business, enabling you to realise the productivity and availability of your applications. We know how difficult multiple licensing models can be. With our advanced knowledge, experience and dedicated team, we can ensure that you are getting the best licensing model for your business objectives.*

### Why us?

- Dedicated operations and sales team with access to the highest level of discounts
- In-house Adobe team deal directly with Adobe and purchasing to reduce your operational costs/man hours
- Dedicated Adobe BDM
- Expertise in all vertical markets
- 1000+ customers
- Unmatched industry knowledge

and Engineering

# Services

We offer a range of different consulting services depending on your needs. Our ultimate goal is to ensure we deliver practical and affordable solutions for your organization based on your current and future needs. To achieve this, we have partnered with leading providers of technology focused on quality and innovation. Together, we can provide you with the capabilities and tools to steer your business through the challenges of the foreseeable future.

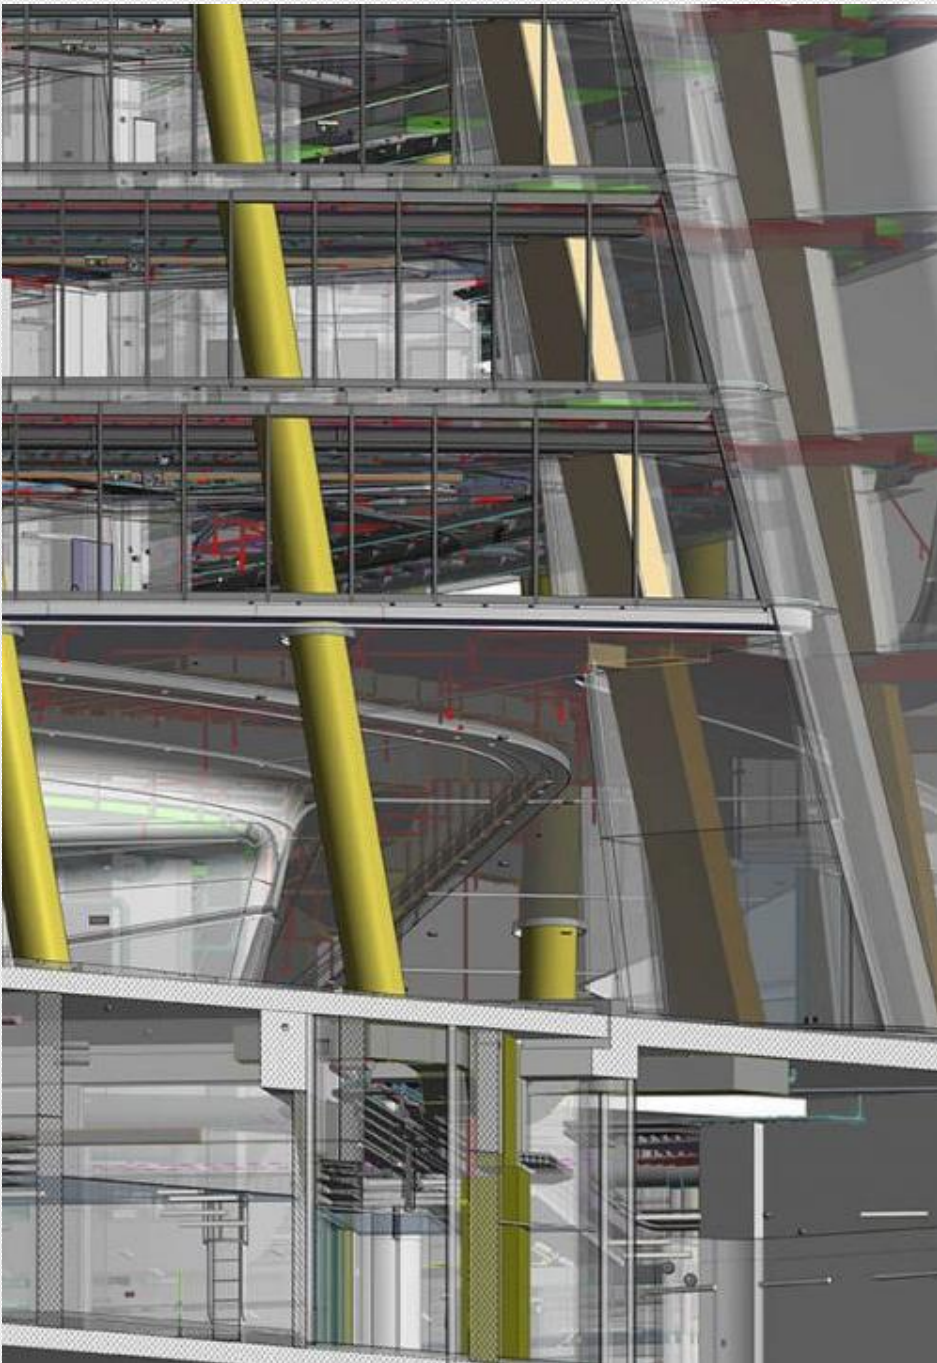

## Our Services

### BIM Services

- BIM Consulting
- BIM Training
- BIM 360 Implementation

### IT Services

- Manpower Outsourcing
- Software Systems
- Hardware Planning
- Network Management
- Security & Protection
- Tech Consulting

# BIM SERVICES

## BIM Consulting

GIC will provide a number of elements for you to be able to get underway with BIM, including:

- BIM Strategy Document Management
- BIM Template Setup
- BIM for Facility Management
- BIM enhanced Life Cycle Management
- BIM use with process automation
- BIM quality with Workflow applications (API)

### Benefits of our Approach

- Plan more effectively for better results by aligning BIM Strategy with organizational goals.
- Accelerate implementation while Mitigating BIM Adoption Risk.
- Customized BIM Process Documents- Organizational BIM Strategy, Project BIM Implementation Plan, Clash Detection Strategy & Matrix, BIM Electronic data management Strategy, Collaboration plan, Team and project based workflow.
- BIM Project Handholding, Monitoring and Pilot Project Training.
- Empower Organizations to leverage new solutions by incorporating BIM Based Automations.

# BIM SERVICES

## BIM Training

Many countries have already set BIM as the mandatory methodology for many of their public projects thus increasing the urgent need for profiles such as BIM Managers, Implementers and Consultants in this industry.

While design, construction and maintenance firms around the world are realizing the business benefits of BIM integration, many are also coming to terms with the challenges associated with implementing and maintaining BIM skills on their teams. Further, the technology landscape is constantly evolving and many firms do not have the necessary resources, expertise or internal staff to keep pace. This is where GDS training and mentoring program comes in.

## SERVICES

### Product Specific Training

- Product fundamental training
- Advanced training
- Modular style training for larger groups of existing users

### BIM Training

- BIM Awareness training for all divisions of the business including Managers
- BIM Training specific to technical delivery teams
- Project support around BIM projects

### Advanced BIM Tools Training

- Dynamo for BIM Process Automation
- BIM for Landscaping
- BIM for Sustainability
- BIM for Facilities Management

# BIM SERVICES

## BIM 360 Implementation

Autodesk BIM 360 addresses the significant challenge for all project stakeholder and contractors when trying to manage the wide spectrum of construction data in a modern BIM environment.

This could be related to construction documentation and site activities from pre-construction design, through to the construction building phase and further along to the facility management and operation phases too, making Autodesk BIM 360 the complete construction project solution.

As principle contractors and project owners are striving to improve the collaboration challenges of project delivery, the BIM 360 platform is increasingly being deployed as an essential tool that will become a pre-requisite for many companies involved in the Design Build and Operate phases of a project. If you would like to know more or are already being asked to implement BIM 360 as part of your project delivery standard free feel to contact us.

# IT Services

Manpower Outsourcing

We specialize in offering comprehensive manpower outsourcing solutions tailored specifically for projects. Whether you require short-term assistance or long-term collaboration, our flexible staffing solutions are designed to meet your project's unique demands.

Software Systems

Our software services encompass a wide range of solutions for your specific needs. From custom software development and application design to cloud computing, and cybersecurity, we offer a comprehensive suite of services designed to enhance your business's efficiency and competitiveness.

Hardware Planning

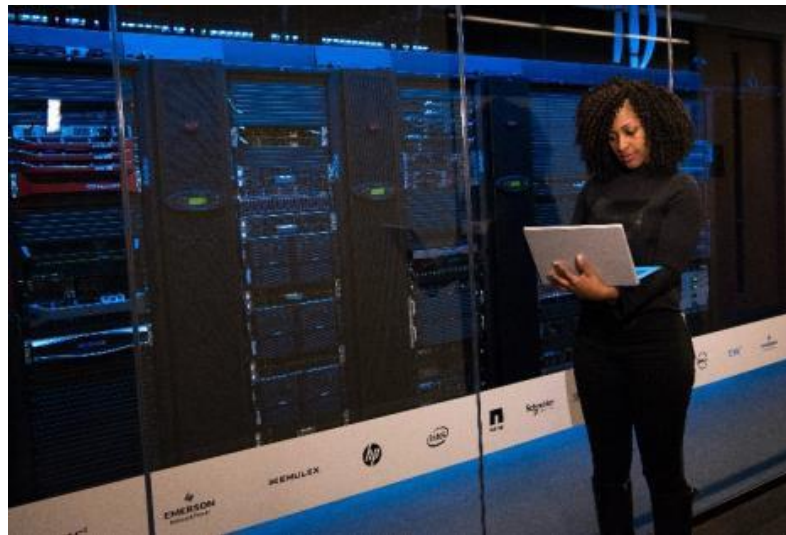

From servers and workstations to networking equipment and storage solutions, we provide end-to-end planning and implementation to enhance your operational efficiency. We deliver a robust and cost-effective IT hardware strategy that aligns perfectly with your business objectives.

# IT Services

## Network Management

With a focus on performance enhancement and scalability our expert team employs state-of-the-art tools to detect and resolve issues before it disrupts your operations. Contact us for unparalleled network management that empowers your business to thrive in the digital age.

## Security & Protection

We provide top-notch cybersecurity protection services to safeguard your digital assets. We offer a comprehensive suite of solutions, including robust firewalls, end point security, threat monitoring to stay ahead of the ever-evolving cyber threats.

## Tech Consulting

With a team of experienced professionals, we offer strategic guidance in areas such as digital transformation, IT infrastructure, cybersecurity, and software development. We pride ourselves on delivering innovative solutions that drive efficiency, enhance security, and improve overall performance.

# Customer Success Stories

Grand International Company provided PAI with Autodesk AutoCAD and Civil3D Licenses, that enabled them to come up with a complete solution that made PAI improve their productivity. It was found using these solutions, PAI reduced coordination issues in the drawing files, maintained the same high quality standards and reduced the time required in processing the approvals.
